## Revival Planned Pahokee Baptists

An opportunity to hear a man whose service as an evangelist is growing with the passing of each day, will be given to those of Pahokee soon, when Evangelist Reginald Wall, opens a two week revival at the First Baptist Church on February 5th.

In previous revival services much success has been reported from the forceful preaching of Evangelist Wall, whose delivery and straight forward messages have won hundreds to Christ. Recently in a meeting in Florence, South Carolina 110 were converted. The minister is educationally and spiritually qualified, and the greatest revivals in the history of the churches where he has preached have been noted.

## Shelter House For Scouts At Co. Park

A shelter house will be built at the new Palm Beach County public recreation park in Canal Point as soon as the county obtains a clear title to the park property, according to an announcement by Paul Rardin at the dinner meeting of the Canal Point Lions Club Monday night.

President A. R. Harrington called for reports at the meeting from the chairman of various standing committees. It was announced that the Lions Club and the Gardenia Circle of the Community Garden Club are joining in the sending of a final plea to government officials to take immediate steps in clearing the banks of the West Palm Beach Canal within the townsite of Canal Point in order that the proposed beautification project can get under way.

## Rardin Seeks Help From SRD On Show Ring At Belle Glade

A move to seek aid from the State Road Department for improvements at the livestock show pavilion at the Belle Glade Experiment Station was started this week by Paul Rardin, vice chairman of the county commission.

Mr. Rardin said he would ask County Engineer J. M. Boyd to seek cooperation from the State Road Department to provide a fill and a section of paving adjacent to one of the loading chutes at the livestock building. The vice chairman said he would ask that the work be done before the second annual livestock show to be held in April.

Dates of the Livestock Exposition, set for April 4-5, were announced Monday by H. L. Speer, assistant county agent from the Everglades.

Mr. Speer said that plans call for a number of judging contests and exhibits and that the events will be more numerous than last year when the initial show was held. He said that entries in the livestock show were expected from 10 South Florida counties.

Commenting on County Agent M. U. Mount's annual report which was made before the County Commission Monday, Commissioner C. Y. Byrd, Delray Beach, said, "The work of this division has been well accepted in the south end of the county, especially the canning centers which have been used to an advantage."

Commissioner John Prince, Lake Worth, said the work of the extension division has been outstanding during the past year and that Miss Sarah Horton, home demonstration agent and her aide, Mrs. Mildred Michaud, should be congratulated on the girls' 4-H Club work which they have been doing."

## Rogers Opposition From Home Town Of Ft. Lauderdale

Congressman Dwight L. Rogers of Fort Lauderdale will have opposition in the May primary from a young attorney-preacher who in years gone by lived next door to the congressman in Ft. Lauderdale. The 41-year-old handsome would-be congressman tossed his hat into the congressional ring on Tuesday of this week.

Congressman Rogers has been expecting strong opposition from some Palm Beach County quarters but in the final days before the filing period closes (Feb. 1) opposition comes right in his own backyard.

In a prepared statement the opposition, Clarence C. Stauffer, says that he has practiced law for five years in Atlanta, heading his own firm three out of those five years. His full and complete prepared statement appears on another page of this newspaper.

George O. Schroder is a patient at the Everglades Memorial Hospital this week.

## New Slogan Planned For State Car Tags

JACKSONVILLE — The "Sunshine State" on Florida automobile tags will be replaced by another slogan, if the vehicle and advertising commission in Tallahassee accept a state chamber of commerce suggestion.

Harold Cole, executive vice president of the state chamber, said his organization has suggested that "the year-round state" be used in the future.

The suggestion, he said, had been placed before Gov. Fuller Warren, Arch Livingston, head of the state motor vehicle commission, and the state advertising commission.

"And reaction from Tallahassee on the suggested license plate change for 1951 has been favorable," said Cole.

## Bollinger Seeks House Office Again

Rep. John E. Bollinger, in a prepared statement, Wednesday an-

nounced his candidacy for reelection to a fourth term as State Representative from Group one, subject to the May 2 Democratic Primary.

He first represented the section in the Legislature in 1943, served in 1945 and again in 1949.

In his prepared statement, he stated he was "a staunch advocate of economy in the 1949 regular and extraordinary sessions."

"I believe that much money could be saved in the operation of State government by eliminating waste and extravagance in some departments. The money thus saved could be applied to the departments that need it most; that is, schools, welfare, and State hospitals."

"If those savings had been made and the money applied to the correct places, then very little new tax would have been necessary. Certainly, not the present sales tax law, which I voted against."

"I believe that a definite source of revenue should be provided for the cost of public education, and thereby eliminate the uncertainty that now prevails."

"The Central and South Florida Flood Control Program must go forward for the benefit and protection of the people."

Mr. and Mrs. Curtis Chase have as their guests his parents from Dansbury, Conn.

## Bolles Canal Road First On Rardin's Co. Plan For Glades

County Commission Vice-Chairman Paul Rardin told the board at its regular meeting Monday morning, that in connection with the road and bridge program recommended to the State in a recent resolution, he intended to press for construction of the Bolles Canal road east from Okeelanta to Six Mile Bridge.

Rardin's announcement came after the commission was officially advised last week in Tallahassee that some projects included in the proposed program could not be carried out because the highways in question had not been designated as State routes.

The Canal Point Commissioner said the Bolles Canal road has already been designated as a State road and that there should be no other obstacle to holdup work on the artery. He said that about four years ago some two miles of that road had been improved but that hurricanes which had occurred since had damaged that section.

The vice-chairman said he hopes to have the work started from Okeelanta east to Six Mile Bridge, with two miles damaged to be repaired at the same time. According to Rardin, \$69,000 would be available for the project this year.

Commissioner Rardin also announced at the board meeting that the State Road Department has advertised for bids to be received Jan. 31 at Tallahassee for the reconstruction of 5.02 miles from Loxahatchee to 20 Mile Bend. Rardin said the State had budgeted \$310,000 in the 1949 projects for the construction of the road. The section in question is part of State Road 50.

Rardin, as secretary and treasurer of the State Association of County Commissioners, and as a director of the organization plans to attend a meeting in Tampa soon to lay plans for the State convention (continued on page 8)

## Fair Promoters Want Good Weather

TAMPA—With 25 mammoth exposition buildings jam-packed with marvelous displays of fruits and vegetables, grain and forage crops, cattle, poultry and hogs, flowers, art, women's work and a wide variety of industrial and commercial exhibits, officials of the Florida State Fair which opens in Tampa, Tuesday Jan. 31, for a 12-day run, are keeping their fingers crossed, hoping for favorable weather.

For months county agents, 4-H Club leaders, Future Farmers, landscape artists, garden clubs and hundreds of other civic leaders have been busy preparing for this big show that serves as Florida's "show window" where over a million people are given an opportunity to visualize what this great state has to offer, homemaker, investor and local resident alike.

Never in the 35 year history of the Fair has such a complete and comprehensive exposition been assembled.

Foremost among exhibit attractions is the gigantic Electrical Exposition where the very latest in household appliances are displayed and demonstrated. Here also is featured the General Motors "Previews of Progress" startling demonstration of the achievements of the nation's research laboratories. Here you will be awed as the commentator conducts a phantom orchestra, moved to laughter as an egg is fried on a cold stove and amazed as model jet propelled pursuit planes and a miniature buzz bomb are propelled the length of the exhibition hall at high speed.

## It's the other fellow's Telephone...

that makes yours  
so Valuable!

If your telephone were the only one in town, it wouldn't be worth very much to you. It's the people you can call and the people who can call you that makes telephone service mean so much.

The value of your telephone increases as more new telephones are installed. Today there are more than twice as many telephones in service as there were before the war and new ones continue to go in at a record rate. Probably some of your friends or relatives are among these thousands upon thousands of new subscribers. Yes, it's the other fellow's telephone that helps to make yours so valuable.

When you consider how much it does for you at the price you pay, telephone service stands out as one of today's real bargains.

## Give Us Back Our Sidewalks, Slim!

I wrote that over an article in the *Clarion* last week, but I didn't like doing it. After all, the man it was aimed at—Slim Henderson—is a good friend of mine.

Slim came into quite a windfall last month, and bought the old Clarke place. The deed gave him title to all the land—right down to the street. Then Slim started to take up the sidewalk to make his lawn look better.

I felt it wasn't fair to the town and said so in my article. Next morning Slim comes around and wants to know what I mean—get-

ting folks riled against him. I felt sorry myself, and we had quite a set-to over the whole business.

From where I sit, that was foolish. Once we'd cooled off (over lunch and a bottle of beer at Andy's Tavern), Slim decided the sidewalks should stay—for the common good and I promised next time I'd take a good look at the other fellow's point of view before writing any articles about him!

## Cinematic Chatter

By Malcolm Miller

Rated as a picture that is not "just another Western" Colorado Territory, with Joel McCrea and Virginia Mayo as the stars and a large cast of expertly chosen featured players, comes to the Prince Theatre, Sunday-Monday.

In this one McCrea plays the part of an escaped felon, who after coming out of prison makes an effort at "going straight," but without success. He is involved in a robbery and has to "high-tail" it to the "tall and uncut." Pursued he tries to fight his way clear but is brought down under a hail of bullets.

Very seldom is the star of the piece killed at the finish, so this one can be marked down as entirely different from any picture of its type to date. I'm sure you'll like it.

See you at the movies—Mal.

Gypsy Rose Lee will be a top attraction at the 1950 Florida State Fair in Tampa Jan. 31 to Feb. 11. She will be featured on the Midway of the Royal American Shows.

## Clause Tells Lions How Improve City

Homer J. Clause, sales manager of the Everglades Growers Cooperative, was guest speaker at the Tuesday luncheon meeting of the Pahokee Lions Club.

Introduced by Lewis Friend, program chairman, Mr. Clause gave a talk on "How to Improve Your City" in which he said the citizens' active interest and participation in civic affairs were necessary for the continuous growth and prosperity of a community.

Following his talk, the Lions adopted a plan for working closely with city officials in the promotion of projects of community improvement. It was decided that at each meeting of the city council three members of one of the club's standing committees will attend the meetings and offer the council the club's full cooperation and active participation in proposed projects to make the community a better place in which to live. It was suggested that other civic groups join the Lions Club in this "active participation in civic affairs" movement. President Emmett P. Holt named E. A. Jensen, J. W. Vann and R. B. Simpson of the community betterment committee to represent the club at the next city council meeting.

Also on the Tuesday luncheon program Bob Durrance introduced the Pilgrim Trio, radio entertainers, who sang several religious songs.

Manning I. Keen announced that a Lions Zone social meeting will be held at the Sugarland Auditorium in Clewiston on Friday, Jan. 27, at 7:30 p. m., with members of the Lions Clubs of Belle Glade, Pahokee, Canal Point and Clewiston invited to attend.

**CHURCH OF CHRIST, SCIENTIST**

"LOVE" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, January 29.

The Golden Text is: "The Lord hath appeared of old unto me, saying, Yea, I have loved thee: with an everlasting love: therefore with loving kindness have I drawn thee" (Jeremiah 31:3).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "And we have known and believed the love that God hath to us. God is love, and he that dwelleth in love dwelleth in God, and God in him" (I John 4:16).

The Lesson-Sermon also includes the following passage from the

Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The depth, breadth, height, might, majesty, and glory of infinite Love fill all space. That is enough! Human language can repeat only an infinitesimal part of what exists. The absolute ideal, man, is no more seen nor comprehended by mortals, than is his infinite Principle, Love. Principle and its idea, man, are coexistent and eternal" (520:3-10 The).

## OPPONENT FOR CLAUDE PEPPER

GEORGE SMATHERS  
Member of Congress  
Miami, Fla.

PANAMA CITY—Rep. George Smathers, candidate for the Senatorial nomination, told Veterans of Foreign Wars Saturday night the greatest menace to the liberty and freedom of the United States "is the one which comes at us from within our shores." In a speech prepared for delivery at the VFW's mid-Winter conference, the Miami Congressman said, "This new and mysterious type of warfare seeks to capture the bodies of men by first capturing the minds of men."

Rep. Smathers announced at his Washington office last week that he hopes to draft legislation to extend the length of payments on veterans' housing in order to lower monthly payments. He said in a statement that veterans who were forced to build three or four years ago to meet their needs had paid much more than those who were buying on the present market. He said a reduction in payments through extensions of loans would result in no overall loss to the government.

## Radio Show Planned For Orange Festival

WINTER HAVEN—Tom Moore, popular radio master of ceremonies, is returning to Florida with his new "Ladies Fair." MBS network radio show which will be featured in daily broadcasts at the Florida Citrus Exposition here, Feb. 13-18, it was announced this week by General Manager Phil E. Lucey.

After several weeks of negotiations to secure a national radio show to spotlight the 1950 Florida Citrus Exposition in Winter Haven, Mr. Lucey stated, "Officials of the Exposition and the Florida Citrus Commission completed final plans this week with the Mutual Broadcasting System and Tom Moore to broadcast his new 'Ladies Fair' radio show daily from the Florida Citrus Expositions grounds."

Tom Moore will be remembered by thousands of people in Florida as star of the "Ladies Be Seated" program which was broadcast daily from the Florida Citrus Exposition in 1948. Since that time he has been generous with many publicity plugs about Winter Haven, the citrus industry and Florida in general on his network shows.

His new "Ladies Fair" radio show is a 30-minute, audience participation program where scores of contestants compete for hundreds of valuable prizes on each broadcast. It is rated as one of the most popular shows on the Mutual Broadcasting System.

The latest improved home appliances, radios, heaters, washing machines, electric refrigerators and countless other products will be displayed and demonstrated at the Electrical Exposition, sponsored by the Tampa Electric Company in connection with the 1950 Florida State Fair in Tampa, January 31 to February 11.

Mr. and Mrs. Paul Collier have moved into their new home in the Armstrong residential subdivision being developed on Bacom Point Road.

## New Rules Given To Fishermen On Lake

TALLAHASSEE — Permanent rules for commercial fishing on Lake Okechobee and the St. Johns river were set up by the State Game and Fresh Water Fish Commission Monday.

They replace, but differ only slightly from, temporary rules which have been in effect during an experimental period while biologists conducted a survey to determine the effect of netting in fresh waters.

Commercial seining for catfish, shad, herring and some other non-game fish will be allowed on annual permits good until June 30 of each year. The permits will be issued only in the months of December and June.

Fishermen will be given a little more time on the water than has been allowed in most spots. They will be permitted to fish from 3 a. m. to 5 p. m. daily. The experimental rules restricted them to daylight hours.

One other new rule is that hoop nets will be permitted for the first time on the St. Johns river. They still will not be allowed in other areas.

The rules were adopted at the game commission's annual reorganization meeting after Cecil M. Webb of Tampa was elected chairman to succeed L. G. Morris of Monticello.

Carpenters and painters have been swarming over the grounds of the Florida State Fair in Tampa for weeks, and Fair Manager Strieder reports everything in readiness for the big show which will open Tuesday, Jan. 31 and run through Saturday, Feb. 11.

Mr. and Mrs. G. Lawton Sims expect to have as their guests this weekend their son-in-law and daughter, Dr. and Mrs. Faust Durden, of Atlanta, Ga.

The Road No. 15 contract calls for widening the road two feet on each side and putting on a new surface. Several new bridges will be built on this stretch of road.

The work on Conner's Highway will consist of putting on a coat of asphalt and one layer of small rock. The base of the road is good but has been slick during wet weather. This new coat of rock will correct this fault.

Florida's "worst road" from South Bay to the Hendry County line will get a retreat job much like the job between Pahokee and Belle Glade which has given such satisfactory service. Shipped in rock will be used to prepare the hot asphalt mix.
